

Missouri State Record Fish

Missouri State Record Fish Program Rules

Missouri has a long, proud tradition of fishing, and its abundant lakes and streams have produced exceptional fish. The Department of Conservation has developed a State Record Fish Program to acknowledge and honor anglers who have caught the largest recorded fish from a list of recognized species found in Missouri waters.

1. To qualify, the applicant's fish must:
 - a. be captured by legal methods from Missouri waters,
 - b. be a species included on the Missouri State Record Fish list.
 - c. meet or exceed the current record.
2. New records must meet or exceed the Master Angler minimum weight for that species to be considered.
3. Anglers may be recognized in two different categories: "pole and line" or "alternative methods" (this includes trotlines, throwlines, limblines,, banklines, jug lines, spearfishing, snagging, snaring, gigging, grabbing or archery).
4. Fish must be weighed on a certified scale in the presence of an employee of the Missouri Department of Conservation.
5. The entry must be examined and identified by a Department of Conservation Fisheries Biologist or Conservation Agent familiar with the genus. If these persons cannot identify the species with certainty, they must seek the assistance of a designated fish identification expert. Call 573/522-4115 ext. 3593 for assistance in finding and contacting the nearest identification expert.
6. Genetic testing will be performed by the Missouri Department of Conservation when necessary for positive identification at no cost to the applicant. Potential record fish may be frozen, but should not be mounted or consumed prior to receipt of a letter confirming the record.

Those records marked with an ✦ were recognized before the requirement to meet or exceed the Master Angler minimum was instituted. New records for these species will be accepted only if they meet or exceed the Master Angler minimum.

Species	Weight	Lake or Stream	Date	Angler	Hometown
Bass, Hybrid Black					
Pole and line	5 lbs. 10 oz.	Table Rock Lake	03/17/2004	Mark Fann	Nixa, Mo.
